Evolve

Enzyme Detergent with Oxygen Bleach

Advanced detergent formulation containing enzymes, oxygen bleach, chelants and nonionic surfactants. Very effective in removing particulate soils, body oils, greasy food soils, and proteinaceous stains at moderate temperatures. Also effective in hard water as the formulation contains a high percentage of polyphosphate water softening agents and soil suspending agents which are effective in a moderate alkaline medium. The formulated non-ionic surfactant provides rapid wetting, good chemical stability, soil removal, and controlled foaming. Oxygen bleach is effective at removing many food stains.

Physical and Chemical Properties

Appearance:	An off-white, free-flowing powder. Dust free.
pH 1.0% solution:	>11.0
Available Oxygen:	2.0%

Recommended Usage

Typical dose rate of 8 ounces. – 2 pounds per 100 lb. Add sufficient Evolve to maintain a good running suds. Extend break to 15 minutes in heavy soil loads with 5 minute carry over followed by rinsing and souring to pH 6.0-6.5 range.

Health and Safety

In case of contact, flush eyes or skin with water for 20 minutes. If taken internally, cause vomiting by giving soap water or mustard water. Then drink large quantities of milk. Call a physician for medical help immediately.
