Metro Flo Alkali

Concentrated Alkaline Silicated Alkali

Metro Flo Alkali is a highly efficient silicated liquid alkali for use with Gurtler Chemicals liquid feed system. It aides detergency and improves soil and stain removal for all types of soil conditions, and is free rinsing. Metro Flo Alkali contains a polyphosphate which aides in chelation of hardness ions, improves whiteness, and is safe on synthetic fabrics. Containing water soluble liquid silicates, Metro Flo Alkali is especially effective on oily and greasy industrial classifications where emulsification and suspension are required. The potassium hydroxide base facilitates ready-rinsing from both natural and synthetic fibers.

Active Ingredients

Potassium Hydroxide
Sodium Silicate
Tetrapotassium Pyrophosphate

Physical Properties

Appearance	Transparent colorless liquid
pH of 1% soln.	>12.0
Total Alkalinity:	15.5 % Sodium Oxide
Density:	11.10 lbs./gallon

Recommended Usage

Your Gurtler technical sales representative will program automatic injection settings for your Gurtler VisTex liquid injection system. The use of **Metro Flo Alkali** is dependent upon the type of washer, load size within the washer and the material to be laundered.

Health and Safety

Metro Flo Alkali is a highly alkaline product that will cause severe burns if splashed into the eyes and may cause alkaline burns to the skin. Seek medical attention if exposure occurs. Read and understand the SDS before using product.
