

ALL STAR™

For Drycleaning, Wetcleaning, or Laundry

Odor Treatment and Cleaning Booster with a Fresh Clean Scent

Formulated to Help Eliminate Odors

Formulated to neutralize odors from fires, floods and other tough odor sources, **ALL-STAR** incorporates a unique blend of complex surfactants to remove the sources of odor causing particulates from fabrics and fibers.

Provides a Fresh Clean Scent

After removing odors, **ALL-STAR** leaves a light residual fresh fragrance. Cleaned garments will not only look and be clean; they will smell clean as well.

Effective for Restoration Work

ALL-STAR is formulated to provide the added stain and soil removal power required for the difficult odors and heavily sooty and dirty loads found in restoration work.

Provides a Cleaning Boost for Heavily Soiled Loads

ALL-STAR can provide the added stain and odor fighting power needed for the more challenging loads faced by all cleaners. In these cases, use of **ALL-STAR** will also aid in cleaning the whole load, not just the garments with odors.

Use as a Preventative Odor Treatment

Cleaning operations, particularly high volume ones, may miss items with odors or may choose not to individually treat loads or items that have odors. Use **ALL-STAR** as an additive in every load to help remove odors that may have been missed prior to cleaning.

ODOR TREATMENT

ALL-STAR Use Instructions

For professional drycleaning, wetcleaning and laundry use only. Before using any chemical product, review the Safety Data Sheet (SDS) for safe handling and proper disposal. If colorfastness is questionable, test first on a hidden area of the item or garment.

Drycleaning Use:

For a two-bath process: Add **ALL-STAR** at a rate of 1 to 2 oz per 10 lbs (or 65 to 130 mL per 10 kg) of garments into the first bath or pre-wash*†. Batch wash or mill for 3 to 5 minutes. Drain and extract to still. Run main cleaning bath under normal conditions. Stronger odors may require an additional 1 oz. per 10 lbs (or 65 mL per 10 kg), as needed.

For best results on smoke and heavy odors: Add **ALL-STAR** at a rate of 2 oz. per 10 lbs (or 130 mL per 10 kg) of load into the pre-wash and an additional 2 oz per 10 lbs (or 130 mL per 10 kg) of load into the main wash*.

For a single-bath process: Add **ALL-STAR** at a rate of 2 oz. of per 10 lbs. of load (or 130 mL per 10 kg).

**†. Smoke loads and especially strong odors may require an additional 1 to 2 oz per 10 lbs (or 65 to 130 mL per 10 kg), as needed.*

Laundry & Wetcleaning Use:

Add ALL-STAR at a rate of 1 to 2 oz per 10 lbs (or 65 to 130 mL per 10 kg) of garments in the prewash. Run normal wash cycle. ALL-STAR may also be used in the final rinse to impart a fresh scent in the load. Depending upon severity of odor, an additional 1 oz. or more of product per 10 lbs (or 65 mL per 10 kg) may be added to the main wash, as needed.

Spray Use:

ALL-STAR may be sprayed on individual items prior to processing. Mix at a ratio of 1 part **ALL-STAR** to 4 parts water, and then simply spray the item prior to processing.

For Preventative Odor Control in Every Load in Drycleaning, Wetcleaning & Laundry:

Add **ALL-STAR** at a rate of 1 oz. per 10 lbs (or 65 mL per 10 kg), of load into the pre-wash*† or main wash*.

For drycleaning, if bath is not sent to still, use only in machines using a detergent.

For drycleaning, if adding ALL-STAR manually, for best results, add ALL-STAR to the machine (e.g., button trap) before placing the load into the machine.

How to Order ALK-20

Order from your authorized Adco -Laidlaw local distributor in 1-gallon containers, boxes of four 1-gallon containers, 5-gallon pails, and 15-gallon drums.
