# TECHNICAL DATA REPORT

**TITLE** Stamford 6746
S S S

**Stamford S S S** Silk Spotter is a gentle spotting agent specially formulated to safely remove light oily or water soluble stains from fragile fabrics such as silk, rayon and sheer polyester. It may also be used on many other fabrics. Stamford S S S may be used safely on the spotting board since it does not contain perc.

Apply S S S full strength liberally to stained area - do not spray. Tamp or brush gently to break up the stain. Dryclean in the usual manner. Do not allow the spotted area to dry prior to cleaning. S S S is self leveling; Do not flush with steam, solvent or water.

S S S may be used as a leveling agent when garments have been spotted on the wet side. Apply spotter, remove the stain and flush with water or steam. Partially dry the area with air and vacuum. Apply S S S liberally to the wet area and dryclean.

**PHYSICAL CHARACTERISTICS:**

APPEARANCE: Water white liquid

ODOR: Pleasant

SOLUBILITY: Completely soluble in drycleaning solvent.

FLASH POINT: Above 146ºF (63ºC) TCC

DENSITY: 6.6 pounds/gallon

12/13/16
