TECHNICAL DATA REPORT

TITLE STAMFORD 6744
WETCLEEN

Stamford WETCLEEN is a unique and highly effective wet side detergent designed to be used on fragiles, knits, drapery and other hand care washables of light to medium soil levels. The product is used in warm or cold water, in a washing machine or as a soak bath. It is gentle to the finest washable fabrics and does not require rinsing, thus saving time and reducing mechanical action. Fabric processed in WETCLEEN will exhibit a pleasant softness of hand and will be free of wrinkles. WETCLEEN contains no phosphates and is completely biodegradable.

Use Instructions:

Hand Washing – Mix 1/2 oz. WETCLEEN with each gallon of cold or warm water in a clean container - soak - gently squeeze periodically - does not need rinsing - squeeze water out or extract lightly - do not wring - air dry or tumble according to care label.

Washer – home type - small loads
Use cold or warm setting per care label - Add 1 oz. WETCLEEN at low level, 1-1/2 oz. at medium level - Wash short cycle on fragile setting - May rinse if desired - dry according to care label.

Commercial Washer – sheers, drapery, etc.
Use 1 to 2 oz. WETCLEEN per 10 lbs. in washer in cold or warm water – may rinse if desired, but it is not necessary - extract, hang dry or tumble as fabric being processed dictates.

PHYSICAL PROPERTIES

COLOR: Light Amber

ODOR: Citrus

DENSITY: 8.4 lbs./gal.

FLASH POINT: None

SOLUBILITY: Complete in water at temperatures less than 110ºF

pH: 5

12/13/16
